## Germany as it is Today—War Degeneration Spreading Crime and Immorality Over Empire

Transformation.  
DETERIORATION OF RACE IS RAPIDLY INCREASING.

Lawlessness Sweeps Over Germany and Military Disease Eats Cancer-like into Tissues of Society.

BY CYRIL BROWN.  
(SPECIAL STAFF CORRESPONDENCE)

## ARTICLE NO. IV.

STOCKHOLM, Feb. 12.—While of the ablest police and detective forces had been transferred to the military governments. Police forces throughout Germany have been cut down to the limit. The surviving police are fully occupied with men sent to enforce food and other war ordinances—their normal job of rooting out criminals fallen almost entirely into desuetude.

## FIELD FOR CRIMINALS.

Thus there is a wide open field of profit for criminal organizations: a standing inducement to the potential criminal to enter the many lucrative war branches of the profession; an increase in professional crimes, such as robbing banks, mail cars, highway robberies, burglaries, larcenies and picking of pockets.

Malefactors of all stripes for the first time in modern German criminal history are enjoying a golden era; they are liberally exploiting to the full their new wartime privileges, increasing, too, in the amount of amateur crime, particularly among the youthful German's population, which, Timm said, seem to be inexhaustible for the balance of the war and far into the transition period.

The actual percentage of criminals in the total population is not known, but the rate of crime in Germany, where crime suppression was once an exact science and a ruthlessly applied art. Compared with peace times, the number of crimes, even a large number, has been reduced by representatives of Mrs. Elizabeth Hendrix of Los Angeles, under what is said to be an old Spanish grant. The land is claimed by the Los Angeles woman is irrigated by the Elephants' Head Canal, the rich land in the Rio Grande Valley. The claim to this land was made by representatives of Mrs. Hendrix with the County Assessor offering to pay the taxes on the different tracts included in the allotted grant.

The County Assessor estimated the value of the land claimed under the Spanish grant to be \$1,000,000.

CRIME AND SUICIDE INCREASE. War degeneration, no longer of mere symptomatic significance, but diagnosed as the top war disease, causing grave headaches among German specialists and thinking men, has now become a cancer-like into the tissues of society, still sound at the core, and has already assumed such forms as these:

Rapidly-increasing crime and degeneracy; graft and minor sins against society.

Progressive deterioration of the youth of the country.

Increasing suicide habit.

Preposterous rate of the birth rate and a somewhat slower rise of the death rate.

Lowering of the legal bars of social welfare standards.

General though less marked physical and moral deterioration.

Increasing amorality and nervous irritability of the masses.

Comparing 1918 with 1914, one can speak unceasingly of a tidal wave of lawlessness sweeping over the land, of the despair of peace-time peoples; the change for the worse being starting only in comparison with the high peace-time standards, and as yet of no immediate military importance, but before long, as far as possible, these come to a head.

Crime and its terrible toll of discovered or suspected "war wives."

Here no vital statistics are available; but rumor and report, which are not always fallacious barometers of social conditions, reveal a number of cases. The year and year of war, the moral attrition, is recording itself in unmistakable terms of crime, and though the curve of criminality is not yet clearly marked, approximate accuracy, it is onward and upward tendency is not to be doubted.

SOME INSTANCES OF CRIME.

The following typical examples of many similar cases which would be considered remarkable in any other than a country where, in peace times, slums and easy sides, gangsters and standing army of criminals, were virtually nonexistent, are offered.

An aged widow living near Berlin was surrounded by four youths aged 15, 16, 17, 18, and 20, their boot including, in addition to the rubber tire and tube of a bicycle wheel (rubber having an excellent taste), three and a half ounces of sausages and five ounces of pickled sausages and meat!—murder in part for not quite nine ounces of food being very Germany. More routine murder stories afford quite frequent reading in the metropolitan German press.

THIS IS AN ERA OF OVERWORKED COURTS, PUBLIC PROSECUTORS AND POLICE IN GERMANY. The figures of punishments and penalties meted out are often startling. An example of still more preposterous is the rapidly increasing number of cases of all kinds pending. In Prussia alone, during the last year, more than 400,000 cases involving violations of food ordinances only were tried before state and municipal courts, with nearly 140,000 convictions; while little more than 100,000 food cases produced a crop of more than 14,000 convicted food sinners.

REPECT FOR LAW VANISHING.

The very evident moral attrition caused by the war, the increasing criminality and fast vanishing respect for law and order, the war, not only working up from the bottom of society but actually spreading down from the top—a bad example to an entire army of professionals, being set by officials, miscreants who, under the mask of military or economic necessity, not infrequently ride roughshod over the paragraphs of the "code" given the German communists.

"One of the vilest consequences manifesting itself as a result of the struggle between socialism and individualism is the disappearance of respect for law and right, at first not so much among the great masses of the people as on the part of the innumerable authorities and war organizations, the end of which is to make it all too often their motto, and the excuse of the war justifies in their eyes much for which there is no legal ground. This is particularly true in the field of food control.

This phenomenon has even been noted that authorities themselves have not kept the letter of official food ordinances, but calmly ignored them.

The increasing volume of war food criminality and minor forgivable sins is not a little due, too, to the same cause, the degeneration war criminal running into the thousands, too much for paid lawyers and judges to digest, let alone policemen and common people. But indifference to law and order, and authority, food and economic pressure still remains the principal reason for vanishing respect of law.

More serious, perhaps, still merely apparent, is the appearance of a new species of progressive degeneration as the war continues, is the increase in war crimes of violence, often due to hunger, mostly fed by abnormal war conditions. The St. Paul Post has warned the conquered territories is recruited from Berlin's terroristic detective force and the slatternly retinue abetted by the lighting of other large German cities. Many strictions."

## "THE TIMES" DAY BY DAY CIRCULATION GAINS.

posals and Germany torpedoes our ships bringing wheat?"

Pieter Troelstra, the Social Democratic leader, said that the decision was taken without consulting the Parliament or the people. He was skeptical concerning the hypothetical 160,000 tons of wheat from America, and said that the American Ambassador was not present.

"The Dutch people ought not put their hopes in America for provisioning," he declared, "but ought to endeavor to obtain wheat from Ukraine. The government ought to pursue negotiations in that direction. German interests do not clash with a favorable attitude toward us; it is the reason that we forgot to take steps to obtain corn from Germany."

"In my opinion Germany would be well within her rights in considering our attitude as an attempt to associate our governments as effective co-operation in the war."

## PROTECT TITLES.

El Paso Realtors Plan to Oppose Los Angeles Woman's Effort to Claim Land.

## BY A. P. NIGHT WIRE.

EL PASO (Tex.) March 20.—Real estate dealers here met today to protest titles to lands in the El Paso area, which claim is made by Mrs. Elizabeth Hendrix of Los Angeles, under what is said to be an old Spanish grant. The land is claimed by the Los Angeles woman is irrigated by the Elephants' Head Canal, the rich land in the Rio Grande Valley. The claim to this land was made by representatives of Mrs. Hendrix with the County Assessor offering to pay the taxes on the different tracts included in the allotted grant.

The County Assessor estimated the value of the land claimed under the Spanish grant to be \$1,000,000.

PALESTINE FIGHTING ASSIGNED TO JEWS.

(BY ATLANTIC CABLE AND A. P.)

LONGDON, Tuesday, March 19.—So long as the exigencies of the service permit, Jewish battalions in the British army are definitely intended for employment in Palestine.

The proposal was made in the House of Commons today by J. I. Macpherson, parliamentary Undersecretary of the War Office.

INSTRUCTOR IS TENTH KELLY FIELD DEATH.

(BY A. P. NIGHT WIRE.)

SAN ANTONIO (Tex.) March 20.—The tenth flying fatality at Kelly Field, Lieutenant Walter J. Johnson of Jersey City, N. J., was killed instantly when his airplane fell 1,000 feet. Lieutenant Johnson, who was an instructor and had been an exceptionally skilled pilot, was starting on a cross-country flight when something apparently happened to his engine and the plane dropped directly to the ground.

SOUTH DAKOTA VOTES FOR DRY AMENDMENT.

(BY A. P. NIGHT WIRE.)

PIERRE (S. D.) March 20.—The lower house of the South Dakota Legislature today ratified the Federal prohibition constitutional amendment making South Dakota the tenth State to accept the amendment.

The Senate unanimously ratified the measure yesterday.

MECHANICS TO MEET IN SAN FRANCISCO.

(BY A. P. DAY WIRE.)

SACRAMENTO, March 20.—San Francisco was named as the meeting place for 1919 at the session here today of the twenty-fourth annual convention of the State Junior Order of United American Mechanics.

Officers elected were: C. W. Burer, State Councilor; A. P. Slaton, Sacramento; O. C. McLean, Burlingame, Secretary; and G. B. Higgins, San Francisco, Treasurer.

The convention delegates adopted resolutions favoring the Roman Catholic cause, the prohibition amendment and endorsing nation-wide prohibition as provided in the proposed constitutional amendment.

WATER POWER BILL INDORSED BY BRITTON.

(BY A. P. NIGHT WIRE.)

WASHINGTON, March 20.—John A. Britton of San Francisco, head of the Pacific Gas and Electric Company, endorsed the general provisions of the administration water power leading bill today before the special House Water-power Committee.

Representative Taylor of Colorado wanted to know about the persistent report that twenty companies sold a monopoly of the country's water power to Mr. Britton. Britton did not believe it; that he did not know much about the subject in the East, but he could answer for California, at least, that his own and the large power companies in the West are controlled and managed, added Britton, though, even if one company owned the nation's entire water power, it would not affect the situation.

Darkness Helps Burglars.

An anonymous Berlin observer says: "The burglars come on at night in Germany and are not afraid to do what they like, kidnap pigs, cows, oxen and calves and slay them at night in the open field, smothering their bodies into Cologne in baskets, until the robbers follow the cattle thieves with their horses. A revolver battle over a ton of tobacco" between two thieves caught while distributing food to the poor.

However, no blood shed; the same night, a less fortunate Berlin cop laid out by the shot of a burglar.

WATER POWER BILL INDORSED BY BRITTON.

(BY A. P. NIGHT WIRE.)

CALIFORNIA SAYS GOVERNMENT MEASURE IS PRACTICALLY WORKABLE.

(BY A. P. NIGHT WIRE.)

WASHINGTON, March 20.—John A. Britton of San Francisco, head of the Pacific Gas and Electric Company, endorsed the general provisions of the administration water power leading bill today before the special House Water-power Committee.

OLD FOLKS NEED  
"CASCARETS" FOR  
LIVER, BOWELS.

Salts, calomel, pills act on bowels like pepper acts in nostrils.

Enjoy life! Don't stay bilious, sick, headache and constipated.

Get a 16-cent box now. Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. Age is never so active as youth. The muscles are less elastic. And the bowels are more elastic.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity, but a lash can't be used every day. What the bowels need is a gentle and natural tonic. One that can be constantly used without harm. The only real tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.

TO ANNOUNCE LOSSES.

One of the most important statements made to the country recently was the speech delivered in the House of Commons by the First Lord of the Admiralty, Sir Eric Geddes, First Lord of the Admiralty. He appealed the demand which has become general that the country should be told the names of the ships lost.

Lord Pirie, an controller general of the admiralty, and he also announced the appointment of Great Britain's foremost builder, Lord Pirie, as controller general of the admiralty.

Lord Pirie will not be a member of the board of the admiralty, but he will have direct access to the prime minister and the War Cabinet. His appointment was immediately received with the greatest satisfaction.

Sir Eric's speech was a simple statement of facts, with no personal accusations, but he was listened to more attentively than the most eloquent orators in the government.

The total Allied and neutral tonnage now is 400,000. Sir Eric stated, the fact that it is at that figure, being largely due to the new construction by the United States and the seizure of German ships.

The output of the admiralty continued the first Lord, was very low in 1915 and reached its lowest point in 1916. This decline was recently overcome by the increased output of munitions, and before the intensified submarine war began Great Britain was 1,300,000 tons to the bad.

During the last quarter of 1917, said Sir Eric, the Allies were averaging within 100,000 tons monthly of making their losses good and were still replacing 75 per cent of the ships lost.

At the present time, the First Lord went on forty-seven ships with 200 berths were engaged on ocean-going merchant service. The shipyards were completely disorganized during the first two years of the war from various causes, he explained, but nevertheless there had been an enormous increase in the output of the admiralty industry.

The output for the last quarter of 1917 was 42,000 tons against 212,000 tons for the last quarter of 1916, while during the first quarter of 1918, it had been only 42,000 tons.

When the controller of construction took over the shipyards, there were five large merchant ships in various stages of construction on which work had been stopped for lack of sufficient material or of labor, said the First Lord, and he added that the men who had been idle were soon engaged in half-million tons of merchant shipping if they had been engaged in building.

The output of repair work, continued Sir Eric, had increased in February, 1918, as compared with January, 1917, by 50 per cent. The more naval craft were docked for repairs in the last quarter of last year than in peacetime, and more than 3000 ships were repaired by the admiralty.

The men so employed were engaged in half-million tons of merchant shipping if they had been engaged in building.

The three main factors in the building problem, said Sir Eric, were first, patrol and other craft to destroy submarines and safeguard ships at sea; second, salvaging and repairing ships; and third, the building of merchant ships. It would be simply providing sheep for the butcher's knife to put all the industrial energies into the building of new ships, he said.

ANXIETY.

Sir Eric admitted that the disappointing results of the January and February building gave justifiable cause for anxiety. He denied the claim that the Admiralty had an arrangement together with merchant shipping.

The drop in the construction of merchant ships, he was attributed by the speaker "mainly to the efficiency of the patrol and anti-submarine craft and to the valuable convoy work of other vessels. The great effort in construction

is ANXIETY.

ROME, March 20.—"The  
Garda," says today's War Office  
report, "there occurred frequent  
harrassing fire by the opposing army.  
From Lake Garda to  
there were continuous  
actions. Along the Pave, and  
parties exchanged fire across  
the river and a patrol encoun-  
tered. Our army arrived and  
effectively drove off the  
positions on the left bank of  
river between Neve and Garda.  
Our aviators set fire  
to several objectives, Con-  
tolo and Col. Mirane. Two  
French planes were brought down,  
French aviators at San Giorgio  
Verga and the other by British  
knowing."

## PRESS FREEDOM URGED IN DISCUSSION OF WAR.

*Restraining Power of Journalism Advocated by Editor of "The Nation."*

(By A. P. NIGHT WIRE)

BERKELEY (Cal.) March 20.—The hour has come for the up- raising of every voice in the nation for the support of President Wilson in holding before the world his formula for a peace based on universal fairness and rights. Oswald Garrison Villard, president of the New York Evening Post Company and editor of the Nation, said in an address tonight at exercises in connection with the ninth anniversary celebration of the University of California.

Mr. Villard's topic was "The Press and Journalism: Relations." His topic and position are against the theory that the press in war times should either be speechless or foreign matters or merely the mouthpiece of the ruling powers, he said. "It is not the press that makes war in England, this theory breaks down, especially as it becomes more evident that no administration of government is so wise, just, and far-sighted as to avoid the need for the restraining power of enlightened journalism," Mr. Villard said.

"A press subservient to functionaries even in pacific times is a curse to the world. It is a curse to often to the world's peace," the speaker said. "It loses the public rendered?"

### HUSBAND OF WIFE FATHER OF CHILD.

**COURT DECIDES PARENTAGE  
DISPUTE IN SEPARATE  
MAINTENANCE CASE.**

A child born to Mrs. Martha J. Gray, the parentage of which was denied by her husband, Everett E. Gray, was the subject of a legal decision by Judge Wood today. Mrs. Gray brought suit for separate maintenance, the charge being cruelty on the ground that her husband had made statements concerning the parentage of the child born to her.

Mr. Gray contended that this was not cruelty, as the statement was true. The trial of the suit yesterday showed that Mrs. Gray had been married for ten years. No child had been born until near the end of that period, after which Mr. Gray continued to live with her.

Mrs. Gray testified that Mr. Gray had said that his father appeared to him in a vision and told him that the child born was not his own. His wife denied this.

Judge Wood held that it was proved that the child was Mr. Gray's, as the latter had offered no evidence to the contrary and the former fact was that the couple were living together at the time of his birth.

Mrs. Gray was granted separate maintenance of \$50 a month for the support of herself and the child.

### ACCOUNTANT GOES EAST FOR WAR WORK.

Responding to a telegram from Lieutenant-Col. R. J. Marshall, Jr., in charge of cantonment construction at Washington, J. Henry Wood, a Los Angeles architect, has been sent to Philadelphia to take charge, as United States field auditor of the auditing and accounting for new construction work at Washington, N. J. This is Mr. Wood's fourth service with the war emergency auditing. He assisted in planning the work at Camp Custer, Michigan, N. J., and was found to be qualified as president auditor for the United States Shipping Board's Emergency Fleet Corporation under direction of the San Francisco office.

### ALLEGED ENEMY ALIEN ARRESTED.

**SUSPICIOUS ARTICLES FOUND  
ON MAN WHO PRAISED  
GERMAN POLICIES.**

Henry Willett, 29 years old, was arrested yesterday by Detectives Oaks and Davis on suspicion of being an alien enemy and of making seditious remarks.

The moral power of every force should be recorded behind the President to insist on world adoption of his fourteen proposals as the basis for determining a peace. Mr. Villard said, "The program will be carried out, he said, unless Americans as a nation really behind President Wilson to see it through. Press and public opinion, as far as I am concerned, is the best guarantee of the success of every force."

"It is this country not ringing with applause for the President's brushing aside of all diplomatic efforts and demand for an open diplomacy and open communication of peace?" Mr. Villard asked. "Every educational institution, every civic group ought to be making its efforts to sustain and hearten the spirit of this foreign policy. This programme will not enact itself in the face of this reactionary forces sure to appear in one guise or another at the peace conference. It is possible that some are absorbed in carrying on, to kill, to make it clear even to ourselves for what we are fighting, and to support the President in the greatest service to the country he has yet rendered."

### AWAIT LIQUOR SUITS.

**NO CHANGE WILL BE MADE IN LICENSE  
ORDINANCE TIL COURTS DECIDE IN-  
JUNCTION MATTER.**

Following a conference between Mayor Woodward, members of the Council, the City Prosecutor and City Attorney, the announcement was made yesterday that no changes will be made in the Liquor License ordinance until the courts have definitely disposed of the injunction suits instituted and to be instituted by the liquor interests against the enforcement of the so-called Ganderland.

A published statement to the effect that the Police Commission had ruled that the Police Commission must remain responsible on April 1 and that the total amount must not exceed \$100 prompted the Mayor to call the conference. The City Attorney said he had further investigated the provisions of the injunction and was convinced that the license now in effect will remain intact; that is, that it will not be the duty of the Police Commission to release permits nor revoke licenses until the number is within the \$100 limit.

The entire question has been under discussion in sporting clubs formerly of Occidental College, formerly of Occidental College, and Mr. Collins and Col. Miller today. Part of the meeting was secret and part of it "free to the public" to which the mayor was invited. The coach should be employed or not and the amount to be assessed were to be available in case the board decides in favor of procuring a coach.

The entire question is being held over at the campus, however, to the question of employing a professional coach for the coming season. With a shortage of funds and the shortness of the season in mind, many of the men are somewhat opposed to the proposition.

**TEXAS LANDHOLDER  
DIES AT GLENDALE.**

Dr. Robert Grieve, a landholder of Clint, Tex., died Tuesday of tuberculosis at the Thornycroft Hospital, Glendale, after three months' illness. He was 67 years old. Dr. Grieve was a member both of the Scottish Rite and the Shrine temples in Tacoma, Wash. His brother, Dr. M. B. Grieve is connected with the Colorado Club in that same place. The funeral will be held Saturday.

Judge Wood held that it was proved that the child was Mr. Gray's, as the latter had offered no evidence to the contrary and the former fact was that the couple were living together at the time of his birth.

Mrs. Gray was granted separate

maintenance of \$50 a month for the support of herself and the child.

**NO WORK FOR**  
MRS. KAISER

Deserted Wife Asks Court to Restore Her Name  
Name of Galpin.

(DIRECT WIRE—EXCELSIOR NEWS)

**SAN BERNARDINO**

March 20.—After her husband left her and she was forced to apply for emergency relief she could not get because her name was Kaiser. This was the ploy of James Kaiser in his divorce suit against James Kaiser in Superior Court today. The woman sought separation only on the ground of desertion, declaring that her husband left without giving his future address. Kaiser declared that she repeatedly declined work under her name because her name was Galpin. She prays for her name, Galpin.

## SHUFFLES NOTE FOR TWO LOANS.

Fugitive's Financial Skill is Revealed in Suit.

Borrowed from Two Banks on Single Security.

Who Owns the Paper Now is Problem for Court.

The story of a financial transaction by Joseph M. Gore, stipulated in Judge Shenk's court yesterday to be a fugitive from justice, was told in the suit of the Security Mortgage Company against Mr. and Mrs. John Delfs, on trial again today.

The Delfs executed a note and mortgage on their home to the security company to be paid to the Security Mortgage Company and was loaned \$10,000, the company taking the assignment of the note and mortgage.

The appearance of the note and mortgage on the security company's books at the end of Mr. Gore, as he is alleged to have disappeared with the \$10,000.

The security company claims to be the owner of the note and mortgage, and under this presumption brought suit against the Delfs to foreclose on the apartment-house.

The contention is that the note and mortgage is the property of the security company.

LARCENY IS CHARGE.

Man is Alleged to Have Secured Auto Tires on Strength of Grocers' Letters.

H. M. Neff was served with a warrant in the County Jail yesterday by Detective A. S. Wilcox and charged with obtaining money by false pretenses.

Neff had been placed under arrest on Monday on a charge of defrauding James Grant, an automobile dealer of a number of tires. The second charge was on complaint of Frank Cryderman, a San Pedro tire dealer.

It is alleged that Neff on March 4 visited the store of Cryderman and after promising to return letters from certain Los Angeles wholesale grocers, secured several automobile tires on credit.

## BOYLE HEIGHTS LIONS CAUGHT! "WOOF!" SAY THEY; WAG TAILS.

RESIDENTS of Boyle Heights no longer will be disturbed in their dreams by visions of man-eating lions devouring children. The "kings of beasts" were traced to their lair yesterday and found to have been obtaining fame under false pretenses. There were two of them.

A hurry call for policemen and high-power rifles was telephoned to the East Side Station yesterday and six officers, under the leadership of Capt. Hanesley, double-quicked to the scene of "Leo's" latest appearance. Spreading in extended formation, according to the latest military tactics, they surrounded the hill where the lions were supposed to be lurking. Traces of the beast's prowess came to view when a pile of chicken bones and a few stripped T-bone steaks were found.

The officers gripped their arms tensely, each keen to be in at the death, but not too intimately so.

"Woof! Woof!" Surely those were canine sounds, not the angry roar of lions cornered.

The climax. Two shaggy animals came slowly to view, each trying to outdo the other in tail-wagging.

Immediately Capt. Hanesley recognized them as two Siberian wolfhounds he formerly owned. Recognition on the dogs' part was mutual, and they whined and fawned on their former master. Slowly the hunters wended their way back down the hill, the dogs following sheepishly.

Progressive.

## OKLAHOMA INDIAN BUYS IMPERIAL COTTON LAND.

CONVINCED after an investigation which lasted exactly two days that Southern California boasts in Imperial Valley the ideal cotton-growing section of the United States, T. L. Woods, prosperous Indian farmer, stockman and merchant from the cotton belt of Oklahoma, closed "yesterday" afternoon a deal whereby he became the owner of a tract of 110 acres of land one mile east of Calipatria. The Imperial Valley Farm Lands Association of this city was the seller and is understood to have received \$175 as a fee for the holding.

The purchase is one of the many men descended from the aboriginal American stock who have in recent years won success in agriculture, oil development and other fields of Oklahoma. He has for several years been engaged in cotton growing near Boley, one of Oklahoma's most prosperous cotton towns, and has at the present time 150 acres of land. He leaves his mother, Mrs. M. E. Godfrey, and a brother, F. K. Godfrey, who reside at No. 227 West Forty-first for his home town, he had secured a street.

## How to Make Oatmeal Bread

Healthful to Eat—Saves the Wheat

1 cup flour  
1/2 cup corn meal  
1 teaspoon salt  
8 teaspoons Royal Baking Powder  
2 tablespoons sugar

1 cup cooked oatmeal or rolled oats  
2 tablespoons shortening  
1 1/2 cups milk  
No eggs

Sift together flour, corn meal, salt, baking powder and sugar. Add oatmeal, melted shortening and milk. Bake in moderate oven 40 to 45 minutes.

This wholesome bread is easily and quickly made with the aid of  
ROYAL BAKING POWDER

If used three times a week in place of white bread by the 22 million families in the United States, it would save more than 900,000 barrels of flour a month.

Our new Red, White and Blue booklet, "Red War Time Recipe", containing many other recipes for making delicious and wholesome wheat saving foods, mailed free—address

### VERINA WOODS

Seattle, Wash.: Mr. and Mrs. Frank Johnson of Long Beach, Mrs. Eliza Clegg, Mrs. Mabel, the former of Long Beach and Miss Cora Kelly of Burbank. Most of the company went to school together in Iowa.

#### By Miss Puget.

Proceeding a lecture which she gave Tuesday evening at the Hotel Huntington, Pasadena, Miss. Simone Puget entertained at dinner a small party in which were included Mr. and Mrs. Howard Huntington and Mr. and Mrs. L. N. Brunswig. After dinner this brilliant young French woman lectured to a large assemblage of fashionable folk on various subjects in which she is interested, making a specific appeal for help for civilians in the ravaged districts of France. Sitting with her on the platform were Mr. L. N. Brunswig, Bishop and Mrs. Johnson, and Mr. and Mrs. Howard Huntington. There were numerous highly dressed parties attending this address and lovely society girls were the usherers of the evening, including Miss Jessie Donning of Kansas City, who is a guest at the Huntington. Also present was Miss Margaret McMillan, another guest at the Huntington. Mrs. Everett Light of Chicago, who is at Hotel Maryland, also did much to make the evening a success. The hostess was Miss Anna, the daughter of Mr. and Mrs. Frank of No. 1228 Westlake.

Miss Puget made a wonderful impression at the Pasadena golf tour last week, surprising everyone to the new players of the table, dining-room and living-room decorations were in gorgeous spring blooms with big pink roses.

#### For Mr. and Mrs. Massey.

Mr. and Mrs. C. F. Massey of Chicago were honor guests at a small but sumptuous dinner party Tuesday evening, when Mr. and Mrs. Robert E. Adams of No. 586 North Avenue assembled an interesting company. The tables, dining-room and living-room decorations were in gorgeous spring blooms with big pink roses.

#### Musical Tea.

Dr. and Mrs. Alfred Guido Schlosser and their daughter, Mrs. Alex Schlosser, were host to a charming musical tea, and the musical musical at which artists and lovers of music were guests. Mrs. Smith Russell of Altadena played a group of short descriptive compositions and then sang a solo. Mrs. Schlosser sang a number of English songs, followed by an aria, "The Shadow Dance" from the opera "Dinorah" as Delibes. Mr. Romeo Fricke delighted the company with his recitation of "Dinorah" and Mr. Percy, a visitor from Louiseville, told tales of the darkies. Countess Irma Mirafiori sang "April" and "Good-by" followed by Ella Spaulding's poem "Fate." Miss Leonore von der Leith sang a group of songs and Salvini sang a solo. Violin solo for Miss Gilda Marchetti. After the music numbers the guests gathered around the big tea table, which was decked in a mass of gorgeous scarves, and the tea was served by Miss Von der Leith and Mrs. Kirk. Among the function were Count and Countess William Leon von Hardenburg, Countess Irma Marchetti, Countess Alice, mother of the famous pianist, Leon Leonoff; Mr. and Mrs. Edward G. Kuster, Mr. and Mrs. Graham Putnam, Mrs. S. R. Fair, Mrs. A. C. McDowell, Mrs. Charles E. Smith, Mrs. Lucy Marks, Mrs. Anna Smith, Mr. and Mrs. Romeo Fricke, Mr. and Mrs. Harry Dow Kirk, Mrs. Smith Russell, Mr. and Mrs. George Englehardt, Mrs. Harold E. Sargent, Miss Gilda Marchetti, Miss Anna Marchetti, Mrs. L. Percy, Miss Mary Johnson of

WHY NOT KEEP HIM BUSY?  
It is now proposed to place the telegraph and telephone systems of the country under control of William Gibbs McAdoo. That's right, give him something to do; he has too much spare time on his hands.

ART AND LITERATURE.  
Richard Harding Davis left an estate of \$50,000. Mary Pickford pays five times what much income tax. This is the parallel between literature and art preserved properly. And they say a cent passes for what it is worth.

WILL BEAR WATCHING.  
Has anybody hereabouts seen anything of Venustiano Carranza? The last we heard of His Whiskers he was writing a letter congratulating the Kaiser upon his birthday. What will he do next? Keep an eye on him!

LUSH MONEY.  
If the source of sundry campaign funds is too closely probed by the county grand jury there is likely to be a personally conducted excursion into the tall timber on the part of some of the politicians of this vicinity. Now is the time for the statesmen to stand together.

A GOOD SLOGAN.  
"Peace by victory" is the slogan adopted by the Republicans of the country. It's hard to beat. "Peace without victory" never has and never can mean anything but cowardice and ignominious defeat. No lasting peace in any line of human endeavor has ever been achieved without a victory of right over wrong—and the Republicans are always right.

A JAPANESE IDEA.  
A well-known citizen of the Westlake district, desiring to compliment his Japanese cook, asked the latter for his honest opinion about the Russian problem. The little oriental's face suddenly brightened and as suddenly became grave again as he replied: "Well, you see, I think like this: Too many people in Russia with too many sentiment—which no good for no country. One centuries ago Europe almost fear Russia, but now today Russia don't worth two cents."

A SOBERING WORLD.  
The people of Great Britain are Hooliganizing more and more on alcoholic beverages. Two-thirds less liquor is consumed now than four years ago and it is probable that still less will be used at time goes on. The idea that either the manual laborer or the brain worker requires a certain amount of alcohol in his system to keep him at the highest point of efficiency is slowly but surely going out of fashion. The argument is not sustained either by logic or experience. The war is teaching the world some great temperance lessons.

THE FORTY DOLLARS A POUND.  
This is not the first time in the history of our country that food prices have been high. The diary of Abigail Adams, wife of John Adams, who succeeded George Washington as President of the United States, shows that in 1776 she paid \$3 a pound for sugar, \$12 a gallon for molasses, \$1 a pound for butter, \$10 a bushel for potatoes and \$25 a bushel for corn, and that she quit buying tea when it went to \$40 a pound.

But these prices were probably in continental money, of which ten dollars could be obtained for a silver dollar.

TAFT—ON PEACE.  
Ex-President Taft says: "Russia's disastrous experience has been a lesson to those who believed the objects for which we entered the war might be attained by negotiation. The only result we can accept is a permanent peace, and a permanent peace can be won only by the overthrow of the German autocracy. Recent events have made it clearer than ever that our constructive peace policy can be carried through only by a destructive war policy—the destruction of Germany's power to menace the safety of the world now or in the future."

It is clear to every thinking patriot that the speeches of the German and Austrian Chancellors were made, not in good faith, with any honest intention of reaching a fair ground for settlement, but for the purpose of encouraging pacifist sentiment among their enemies and weakening the spirit of the United States and our allies. The German Chancellor hypocritically accepts certain of the principles laid down by President Wilson at the very time when Germany has repudiated the whole basis of our "peace programme" and defied our demand for the evacuation of Russian territory and such a settlement as will leave the Russian people free to work out their own future.

Says Mr. Taft: "The purpose is to announce our determination to carry on the war until the end for which we took up arms is achieved; and to strengthen that determination by showing the diametrical difference between the selfish aims of Germany and our own constructive programme."

Give Biddy a bit of help by planting egg plants.

HOPELESS AND FAITHLESS RUSSIA.  
When President Wilson sent his recent message of sympathy and assurance to the Bolshevik aggregation, holding an anarchist cabfest among the ruins of an ancient empire, The Times was amazed, and its amazement is aggravated by every fresh confirmation of the degrading conditions tamely acquiesced in by a large majority of the Russian people. In that ill-timed expression of doubtful sentiment the President assumed that he was speaking for the whole American people, so that the insulting answer returned by the soviets to his well-meant but unfortunate advances was aimed at every loyal American citizen.

Here are the concluding words of the message of the President: "The whole heart of the people of the United States is with the people of Russia in the attempt to free themselves for ever from autocratic government and become the masters of their own lives." Masters of their own lives? Is this the interpretation the President puts on the disgraceful peace just concluded with autocratic Germany? Is throwing over King Leo and accepting King Stork the front-line freedom for which democracy is fighting?

We protest strongly against the assertion that the whole heart of America is with the Russian people while that faithless people continues to pursue its present course of action—perhaps "of inaction" would express it more correctly. As for the intention "to substitute the wishes of Germany for the purpose of the Russian people" is not that abominable end served just as surely by the servile and passive Slavs as by the domineering active Prussians? God will only help those who help themselves. What "purpose" of any sort is hopeless Russia displaying at the present time in a campaign, and money talks; but we are of the opinion that the California electorate is not to be purchased.

Apparently the chief "purpose" of the decadent Russians, as demonstrated by the government (save the mark!) they are slavishly indorsing is to forget every obligation they owe to their old and tried friends, to throw to the winds the last remnant of Russian honor and Russian decency, to replace industry and order with riot and robbery, to attempt under German direction to spread these same soul-killing principles where they will rot and mildew the spiritual energies of their former allies, to "become masters of their own lives" even at the cost of dragging tortured freedom behind the chariot of a triumphant tyrant or at the equally despicable alternative of sinking civilization to their own depths of shame and savagery. And for this the whole heart of America is supposed to be with the people of Russia!

Another interesting question raised by the possibility of Mr. Ralph's candidacy is the effect it would have upon the race to be made by J. O. Hayes of San Jose. Naturally these men would expect the majority of their support from the bay district and with both running they would pull against each other. It is understood that Mr. Hayes has been trying for a week to effect some sort of an agreement with Mayor Ralph whereby the latter would withdraw and leave the northern field open to the San Jose editor.

Whatever is the outcome of the Ralph-Hayes mix-up, friends of Gov. Stephens believe he will land the Republican nomination. With our two United States Senators from the North and fully 80 per cent of the State's patronage divided among Californians above the Tehachapi it is reasonable to assume that the voters of Southern California would stand for a southern candidate if he were of the right timber.

Gov. Friend W. Richardson, the ever sunny and ubiquitous political State Treasurer, may prove more of a factor in the gubernatorial fight than he has been accounted. He is already in it up to his neck, and Gov. Stephens is his mark. With his widely scattered strength in the rural districts, Richardson apparently hopes to cut jagged holes in the Stephens columns—and we expect he will do it. He has more "know-how" than the Governor has, but is more of a printer than a statesman.

We see that Col. Roberts, the consistently militant stalwart, who owns and conducts the Long Beach Telegram, has paid his respects to the Governor in Wattersonian style. In a recent editorial he said:

There are far more important questions involved in the Governor's candidacy than the relatively insignificant matter of his place of residence. We speak, of course, from the so-called "stand-pat" viewpoint.

Gov. Stephens has been a party to every political infamy that has visited the Republics of the States in the past few years. He was hand in glove with those who disfranchised the "regulars" in the Taft campaign. His voice was never lifted in honest protest against any indignity, humiliation or shame to which Republicans were subjected so frequently in the forbidding past. He has, in his every official action—where partisanship was involved—been a bitter and unyielding advocate of that policy of "stand-pat" when vanquishes were to be filled—by appointment—in offices declared by law to be "nonpartisan"—we refer to the judiciary—did the Governor accept a promising opportunity to "heal the breach" by wisely and impartially dividing those offices between Progressives and Republicans? Refer to the record! Every one of those judicial positions was filled by a Progressive! And now we are urged to "bury the hatchet"—by re-electing Stephens!

The best friends of Gov. Stephens have never ventured to claim that he is a man of strong character or marked initiative ability. The frozen truth is that the Governor is as lacking in "backbone" as an overripe stalk of asparagus. Practically his every important political action is perpetually censored by his private secretary and a prominent journalist in Los Angeles.

There will be greater difficulty than the Governor's campaign managers suppose in lining up the straight Republicans of the south behind Stephens—they have such tears of heaven have robbed them of many of their precious petals which are wrinkled and curled dead on the grass? And do we feel that thus the sorrows of life must take from us many of the friends and thoughts and ideals which we hold closest to our hearts? Whatever it be, the fact remains that the sight of flowers after the rain has an appeal.

Prominent "journalist" is good!

EGGLESS EASTER!  
Mrs. Herbert Hoover and other prominent women of Washington have launched a campaign to save 60,000,000 eggs by prevailing on the people of the country to observe an eggless Easter. Even the annual egg-rolling on the White House grounds has been abandoned. If Uncle Sam says eggless Easter then eggless Easter it shall be. However, we may all take consolation from the fact that the Easter feast, after all, is not primarily a Christian institution, but an old pagan custom appropriated by the Christian world to celebrate the resurrection of the Saviour.

Taxpayers ought to appreciate the fact that neither the administration nor the Treasury Department can be criticized for the complicated tax forms issued by the latter. They are the best that human ingenuity could devise for interpreting the requirements of impractical and complex tax laws passed by a Congress deficient in business sense.

One-half of the world doesn't know how the other half gets by.

ROLPH AND THE GOVERNORSHIP.  
Despite earlier rumors to the contrary, it is more than probable that Mayor Ralph of San Francisco will be a candidate for Governor. If he runs at all he will seek the Republican nomination and to secure it must receive generous support from the South. This is the phase of his possible candidacy that interests Republicans below the Techeape.

Can Southern Californians consistently aid a northern candidate whose record has been one of aggressive antagonism to the best interests of the South and hostility to its ideas and ideals? Mayor Ralph is now and always has been the champion of that element of San Francisco which would tear down Los Angeles and Southern California. He is the recognized leader of the gang that opposes industrial freedom, that is against true progress and the healthy development of this or any other California community. He is the candidate of the knockers of Los Angeles.

To the credit of San Francisco it may be said that the substantial elements of that city, the business men who have built a great municipality under most adverse conditions, will never unite with the obstructionists behind the Mayor. They bitterly resent his policy of destruction and may be expected to fight him just as hard and vigorously as the standpatters of the South.

With his own ballyhoo divided, and hoping only to receive the support of the few rabid unionists of Los Angeles and vicinity, we are convinced that the candidacy of Mr. Ralph should not be taken too seriously. Whenever he is the topic of conversation here or elsewhere a friend bobs up with the threat that Ralph has a million to spend in a campaign, and money talks; but we are of the opinion that the California electorate is not to be purchased.

Unquestionably it is because of the persistent rumors of the Ralph bag that he is often mentioned as a candidate. In all political fights there is a certain contingent always to be found on the side of the candidate who has the largest bank roll. In this connection it is interesting to note that a former "wicket" man of a big San Francisco gambling house has been in Los Angeles for the past week trying to create Ralph enthusiasm. He has met disappointment at every turn.

Another interesting question raised by the possibility of Mr. Ralph's candidacy is the effect it would have upon the race to be made by J. O. Hayes of San Jose. Naturally these men would expect the majority of their support from the bay district and with both running they would pull against each other. It is understood that Mr. Hayes has been trying for a week to effect some sort of an agreement with Mayor Ralph whereby the latter would withdraw and leave the northern field open to the San Jose editor.

Whatever is the outcome of the Ralph-Hayes mix-up, friends of Gov. Stephens believe he will land the Republican nomination. With our two United States Senators from the North and fully 80 per cent of the State's patronage divided among Californians above the Tehachapi it is reasonable to assume that the voters of Southern California would stand for a southern candidate if he were of the right timber.

However, we may all take consolation from the fact that the Easter feast, after all, is not primarily a Christian institution, but an old pagan custom appropriated by the Christian world to celebrate the resurrection of the Saviour.

One-half of the world doesn't know how the other half gets by.

#### DISTRIBUTION OF WEALTH.

We have become so accustomed to big figures of late that mere millions no longer impress us. Thus, the statement that a motor company made a profit of \$60,000,000 during one year scarcely caused a ripple of surprise.

There is wealth enough in this country, and to spare; but it does not always circulate so freely as it might. There is too much congestion. Congestion of the blood is the cause of physical ill. Congestion of the circulating medium is the cause of social ill. Alongside of many over-rich there are too many very poor for such a great and wealthy country of boundless resources.

The happiest country is that in which none are very rich or very poor. That ideal condition still exists in some parts of this country. The congested sections are the big cities, especially manufacturing centers, to which more people flock than can always be employed.

This does not mean that there should be an equal division of the wealth of the country among the people. That would be absurd. Within a year or two the provident would be rich again, and the reckless would be poor. It means that there should always be opportunities for all who are willing to work. It is a national disgrace that any willing man or woman should ever suffer in this country from lack of work when there is so much work to be done.

Of great importance is a method of assisting those who are able and willing to cultivate and own small tracts of land, thus making them a source of strength, instead of a menace to society. The beauty of such a system is that it is not a costly charity, but a profitable investment. Other countries, like Australia and Canada, have shown the way. We might well profit by their example.

HELP THE UNITED STATES BY SAVING!  
THE WAR CRITIC.

I've bungled everything I've tried. I've shown there's such a word as fail; and always I have let the hide go with the horns, the hoofs and tail. I used to run a mart of trade until the sheriff closed my door; and peanuts, then, and lemonade. I sold till I went broke once more. I used to sell hot dog and wurst, but couldn't sell the business, and again once again was I forced into various kinds of commerce. I can't conduct a peanut stand, nor make the popcorn business go; I am no good at pounding sand, at shearing swine or baling snow. And having failed at all I've tried, lost everything I've struggled for. I feel that I am qualified to show how we should run the war. All day I sit around and tell what Halig and Pershing ought to do if they would make the Kaiser yell, and show him to his proper place. And when he goes to the men who lost the confidence of men like me and made the navy such a frost that it has chilled the deep blue sea. I climb on Baker's tortured frame and from him take a dozen falls, and show just where he quenched the game and gave the foe the base on balls. I cannot wind an eight-day clock or cut the weeds or till the loam, but I can stand around and talk until the ring-tailed cows come home.

WALT MASON.

HELP THE UNITED STATES BY SAVING!

Of course every one is not a producer, but every one is a consumer. We must avoid the destruction or wasting of food, clothing and fuel, for these things thus saved will instantly be used in the prosecution of the war. In other words, saving is the path which leads to victory. We do not mean the saving only of those things directly or indirectly related to the conducting of this war, but the saving of anything which will assist in the prosecution of the war. In other words, saving is the path which leads to victory. We do not mean the saving only of those things directly or indirectly related to the conducting of this war, but the saving of anything which will assist in the prosecution of the war. In other words, saving is the path which leads to victory. We do not mean the saving only of those things directly or indirectly related to the conducting of this war, but the saving of anything which will assist in the prosecution of the war. In other words, saving is the path which leads to victory.

Show an interest in the personal comfort of those about you. Offer the sergeant your old shirt. At the proper time, ask the colonel if he has sewed himself up for the winter. If you are absent without leave and your company commander speaks to you about it, tell him that you are taking your next furlough on the installment plan. This businesslike reply will greatly please him. All probability he will give you a permanent vacation.—(Brainless Bates.)

Taxpayers ought to appreciate the fact that neither the administration nor the Treasury Department can be criticized for the complicated tax forms issued by the latter. They are the best that human ingenuity could devise for interpreting the requirements of impractical and complex tax laws passed by a Congress deficient in business sense.

Says Mr. Taft: "The purpose is to an-

ounce our determination to carry on the war until the end for which we took up arms is achieved; and to strengthen that determination by showing the diametrical difference between the selfish aims of Germany and our own constructive pro-

gramme."

## DUTCH MARINE SITUATION HOLDS TRADERS IN CHECK.

Wall Street Market Dull Except for Big Liberty Bond Dealings.

(BY A. P. NIGHT WIRE)

NEW YORK, March 20.—Trad- whelmingly to the irregular dealing on the stock exchange to day, aside from the relatively heavy dealings in Liberty Bonds, was dull almost to the point of extinction. Hourly sales after 11 o'clock barely averaged 25,000 shares, the day's turnover amounting to the massive total of 225,000 shares. British incentives were again lacking, chiefly by reason of the uncertain Holland-American situation, and the uncertain status of the iron and steel industry in connection with the new price schedule to be fixed by the War Industries Board.

These conditions were balanced in a number of factors, however, money, which fell to 4 per cent. after opening at 5 1/2, and indications that the local banking pool may shade the long-prevailing 6 per cent. rate for loans.

Representative stocks made little or no change, these issues closing at nominal gains and losses. Some of the highly speculative issues reflected the recent developments in General Motors making an extreme decline of 4 points, while Industrial Alcohol gained almost as much.

Shipments were again sensitive to the market, and the shipping lines were quiet until the final news when the Pacific group hardened, with Great Northern and minor, coal.

United States Steel closed at 100 1/2, up 1/2, and advanced, reflecting part of its gains.

Liberty issues contributed over-

## COUNTRY COMBED FOR ALLEGED GERMAN SPY.

Federal Agents Hunt Jail-Breaker as a Dangerous Tool of Kaiser.

UNITED STATES MARSHAL C. T. WALTON is combing the country for Max Shulz, alias Fred Walters, an alien enemy and believed to be a dangerous German spy. Shulz broke jail at Santa Maria while deputy marshals were on their way to that town to bring him to Los Angeles.

He was originally arrested on the charge of burglary. He is 35 years of age, 5 feet 6 inches high, weighs 160 pounds, dark brown hair, hazel eyes, taken broken English and is of a sullen disposition. He does not carry an alien enemy certificate.

Inquiry of Federal officials yesterday into the case of John W. Block, charged with violation of the

orders of President Wilson, in that he set down his office address as his residence and is living within a half-mile of the Glen Martin airplane factory without a permit, revealed the fact that the man is still under custody of the city authorities.

Arthur Krauss, an automobile salesman, who says he is of mixed Mexican and German blood, was arrested yesterday by an attack of Justice on the charge of having made a false statement in his questionnaire; that he was an alien, when as a matter of fact, he is not. Krauss says, informed on him.

He admits that he voted in San Francisco a year ago, although at the time he had no right to do so, as he insists that he is an alien and

## WHEEL TAX TO FILL COFFERS?

City Seeks Some Method of Securing Money as Bars are Closed.

A wheel tax upon all commercial vehicles was proposed yesterday by Councilman Conrad who introduced a resolution directing the Efficiency Commission to investigate the matter and make a report at once. The purpose of the proposed tax is to increase the city's revenue in anticipation of the deficit to be caused by the elimination of the saloons.

Councilman Mallard said he believed that the proposed ordinance should not be discriminatory, that owners of vehicles will not object to the extra tax if every one is taxed alike.

An unusual situation has arisen in connection with \$19,000 worth of Los Angeles bonds which are now in the vaults of the Chase National Bank at New York. It developed when a letter was received by City Treasurer Powell from the Chase National Bank at New York, notifying him that the bonds had been received, but that no instructions accompanied them.

The unusual transaction caused a stir in the Council yesterday morning when the letter disclosing negotiations which have resulted in sending almost \$1,000,000 of securities away without a cent of money being placed with the City Treasurer.

The Chase Bank letter reads:

N. T. Powell, Esq.,  
City Treasurer of the City of Los Angeles.

Dear Sir:

We received today, without an accompanying letter, \$19,000 Municipal Improvement District No. 1, city of Los Angeles, Public Improvement bonds maturing December 1, 1919-1926.

On June 1, 1917, and subsequent coupons attached. We assume these bonds were issued at your request and that we shall receive your definite instructions regarding same in due course.

We are holding them subject to your order.

[Signed] C. D. SMITH,  
Assistant Cashier.

There was an air of mystery about the entire matter, but the issue was plain when the bond was presented to the Council, a communication from City Treasurer Powell, who states that he knew nothing regarding any negotiations which have been made concerning bonds.

President Farmer said it was

understand that the grand jury is now investigating the manner in which the present owners of the Imperial Cafe on Spring street, and Charles Pavlovich, a former waiter in the cafe.

The case had attracted considerable attention because of evidence introduced by the defendants which disclosed certain alleged irregularities with respect to the distribution of the property.

The complaining witness in the Bebeck case was George Petrovich, who alleged that the defendants appropriated money belonging to the Imperial Cafe. Bebeck has a license as

well as a license to lease it, but no bill of sale of the property to Petrovich.

Bebeck denied having given Petrovich a complete bill of sale, as there was a temporary document given for the purpose of securing a liquor license for the cafe.

Bebeck stated he had been refused a license by the Police Commission, who informed him that he could not get a license to lease it as he owned any interest in the cafe.

COUNTY HAS NO ROAD OVER MALIBU RANCH.

## COUNSEL RESUMES PROCEEDINGS IN COMPLICATED LITIGATION NOW IN COURT.

County Counsel Hill has written to the Santa Monica-Ocean Park Chamber of Commerce a resume of the proceedings with reference to the Malibu road case, the letter being in reply to an inquiry from the chamber. Officials and citizens of Santa Monica, Pacific Palisades interested in the matter, but because of the complicated state of affairs the exact status could only be illuminated by a legal analysis.

Mr. Hill reviews the various actions and states that at present the county has no road on the Malibu ranch and will not have until the suit is concluded. He states that the Malibu property is tried. Because the question was raised that the Superior Court was without jurisdiction, and two ranch companies whose franchises cover two counties are joined as defendants, the matter will be tried before the Railroad Commission. When this has been done a date will be named for the trial.

The county's condemnation suit covers a highway through the Malibu ranch as well as a connecting road from the main road to the Malibu road which will connect with Los Angeles Canyon.

Presiding Judge Wellborn yesterday sat the trial of the condemnation suit for June 24th.

## ARRESTED FOR FORGERY.

Charles A. Northrop, aged 22, janitor at the Union Rescue Mission, No. 145 North Main street, was arrested yesterday on a complaint sworn to by Postoffice Inspector W. E. H. H. He was accused of forging the name of J. B. Snowden, also an inmate of the mission, to a money order for \$20. The money was sent to Snowden by relatives in Syracuse, N. Y. Snowden had in \$100 before before United States Commissioner D. M. Hambeck. The accused had the order cashed at a saloon, and says he spent all of the money but 75 cents for whisky in twenty-four hours.

## PATH OF LIGHT NOW ASSURED.

Council Appropriates Money to Complete System on Broadway.

The last step in connection with the proposed ornamental lighting of Broadway was taken by the Council yesterday when enough money was appropriated to complete the project. The contract has been awarded and the work of installing the new posts will be started within a short time.

Those behind the project raised \$5,000 to pay the cost of installation and the lowest bid was \$5,000. As a result it was necessary to secure \$4,000 and the City Attorney ruled that the city had legal right to supply the money in anticipation of a supplemental assessment. The Council voted unanimously to provide the money.

## ADMITTED AS ATTORNEYS.

The District Court of Appeal yesterday admitted the following applicants to practice law: James Hession, Joseph J. Rosenblum, Raymond E. Best, Byron J. Walters and Nathan H. Glaeck.

## BONDS GO EAST MYSTERIOUSLY.

Paper Worth Nearly Million Now in New York.

City Treasurer Says He Knew Nothing About It.

Desired to Avoid Publicity, Says Councilman.

An unusual situation has arisen in connection with \$19,000 worth of Los Angeles bonds which are now in the vaults of the Chase National Bank at New York. It developed when a letter was received by City Treasurer Powell from the Chase National Bank at New York, notifying him that the bonds had been received, but that no instructions accompanied them.

The unusual transaction caused a stir in the Council yesterday morning when the letter disclosing negotiations which have resulted in sending almost \$1,000,000 of securities away without a cent of money being placed with the City Treasurer.

The Chase Bank letter reads:

N. T. Powell, Esq.,  
City Treasurer of the City of Los Angeles.

Dear Sir:

[Signed] C. D. SMITH,  
Assistant Cashier.

There was an air of mystery about the entire matter, but the issue was plain when the bond was presented to the Council, a communication from City Treasurer Powell, who states that he knew nothing regarding any negotiations which have been made concerning bonds.

President Farmer said it was

understand that the grand jury is now investigating the manner in which the present owners of the Imperial Cafe on Spring street, and Charles Pavlovich, a former waiter in the cafe.

The case had attracted considerable attention because of evidence introduced by the defendants which disclosed certain alleged irregularities with respect to the distribution of the property.

The complaining witness in the Bebeck case was George Petrovich, who alleged that the defendants appropriated money belonging to the cafe.

Bebeck denied having given Petrovich a complete bill of sale, as there was a temporary document given for the purpose of securing a liquor license for the cafe.

Bebeck stated he had been refused a license by the Police Commission, who informed him that he could not get a license to lease it as he owned any interest in the cafe.

COUNTY HAS NO ROAD OVER MALIBU RANCH.

## TESTIFY FOR MORTON.

Law Partners Say Truth Was Not Told About Alleged Stolen Money.

Will Hayes, former law partner of W. G. Morton, and Daniel M. Hiday, also an associate, were called as witnesses in Mr. Morton's behalf in disbarment proceedings before Judge Monroe yesterday. Mr. Morton testified on Tuesday in which he stated that he did not know that the documents accepted from George Butler, charged with grand larceny, had been stolen.

Mr. Hayes and Mr. Hiday, also accused on similar charges, testified as to conversations with the Butlers which related to the McCormick letter and the statement of Butler that he had not told the truth.

The Association will offer evidence in rebuttal today.

## GIVES JUDGMENT AGAINST ACTRESS.

Charles Hammel, assignee of a local shop, was given judgment for \$525.75 against Olive Stokes Mix, heiress and moving picture actress, by Judge Avery yesterday in a suit involving an account for goods bought. The complainant alleged that Mrs. Mix, former wife of Tom Mix, cowboy film actor, bought goods worth \$525.75 from him.

Mrs. Mix, who was not in court, is a legal representative who contend that the bill originally was \$700 and that \$175 had been paid account, leaving a balance of \$215.

Presiding Judge Wellborn yesterday sat the trial of the condemnation suit for June 24th.

## MEXICAN GUILTY.

Verdict of Manslaughter Returned on Charge of Throwing Wife from Window.

A verdict of manslaughter was returned by a jury in Judge Craig's court late yesterday in the trial of Guadalupe Martinez, a young Mexican, charged with hurling his wife, Rose Martinez, to her death from a window of their apartment in North Hill street, one evening last December.

The trial occupied two days. It was contended by the State that the murder was the culmination of many quarrels between the couple.

Defense attorneys contend that he was put in a defense that he was not in the room when Mrs. Martinez fell to the ground and that the cause of death must have been accidental or premeditated.

There was also contention by the defense attorneys that Mrs. Martinez had "vampire" tendencies, and in order to secure expert testimony on the habits of vampires, Mrs. Theda Bumford, film actress, had been subpoenaed. She did not appear on the stand, however, as it was intimated by Deputy District Attorney Fricke and Hogan that they would oppose any testimony given by her.

## ADMITTED AS ATTORNEYS.

The District Court of Appeal yesterday admitted the following applicants to practice law: James Hession, Joseph J. Rosenblum, Raymond E. Best, Byron J. Walters and Nathan H. Glaeck.

## "TIZ" FOR SORE, TIRED FEET—AH!

"Tiz" is grand for aching, swollen, tender, calloused feet or corns.

Ah! What relief! No more tired feet; no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, bunions.

No matter what ails your feet or what under the sun you tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which puff up the feet. "Tiz" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it! Get a 25-cent box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole year's foot comfort for only 25 cents. Think of it!

## LETTERS TO "THE TIMES."

(The Times invites strong, clear, bright expression of opinion on current subjects, timely, pertinent, and forcible. Letters are not returned, unless addressed to the editor, and are subject to editing and condensation.)
